July Living in Harmony

Dear Sasha,

We are thrilled and honoured to share this most recent recognition as the Global Winner for Gourmet Vegan Cuisine from the World Luxury Restaurants Awards.

Looking back five and a half years ago when we opened the gate to Fivelements, we had hoped our guests would respond well to our integrative holistic wellness concept. Incorporating traditional Balinese healing and wellness, plant-based living foods cuisine, sacred arts and sustainable design, the innovate healing concepts such as Sakti Dining Room™ are inspired by and born in Bali and are entirely representative of this idea.

Through years of discovery, research, healing, illness and experiencing the extraordinary healing impact of eating plant-based foods firsthand, we cultivated a vision for Fivelements' cuisine: creating an artisanal gastronomic journey with natural, organic, wild-harvested and locally-sourced ingredients from Bali and nearby. We wanted people to experience eating well, eating for energy, beauty and longevity and most importantly, enjoying a beautiful meal prepared with Love...

Lahra & Chicco Tatriele,
Fivelements co-founders
